SUMMARY

Final-year Mathematics student at Universitas Indonesia with a strong interest in data science. Experienced in marketplace data analysis, report automation with Python and Google Sheets, and NLP and anomaly detection projects.

EDUCATION

Universitas Indonesia Aug 2023 – Aug 2027 (Expected)
Bachelor of Mathematics | GPA 3.51 / 4.00

Skill Academy – Mastering AI Engineer (Machine Learning, Deep Learning, NLP, MLOps) Dec 2023 – Dec 2024

EXPERIENCE

Data Analyst Intern, PT Warna Emas Indonesia Aug 2026 – Present

- Track GMV and content compliance (Live Session, Short Video, Share Link) across 7+ FMCG brands.
- Built Python pipelines to clean, merge, and split TikTok Shop and Shopee reports per brand.
- Automated content tracking in Google Sheets with Apps Script to feed a live performance dashboard.
- Analyze competitor benchmarks with Kalodata and Fastmoss and built a creator-contact scraper for pitches.

Mathematics Tutor, Tutorin Math May 2025 – Present

- Tutored 50+ students for UTBK, SIMAK UI, TPA, and CPNS TIU exam preparation.
- Developed 40+ learning modules and question banks with concept summaries and worked solutions.

Teaching Assistant, Universitas Indonesia
Calculus I Sep 2025 – Dec 2025
Calculus II Feb 2026 – Jun 2026

- Graded assignments and prepared solution explanations for both courses.
- Built grading rubrics and managed score recaps in Excel, aligned with the teaching team.

PROJECTS

GoPay User Sentiment Dashboard Jan 2026 – May 2026

- Built an end-to-end NLP pipeline and Streamlit dashboard for 4,900+ GoPay Play Store reviews.
- Used Indonesian RoBERTa for sentiment and BERTopic for recurring themes; stored results in SQLite.

Cloud Data Security Risk Analysis Sep 2025 – Dec 2025

- Detected behavioral anomalies in user activity logs with Isolation Forest on daily user-level features.
- Used SHAP to identify key risk-driving behaviors; wrote a report for non-technical audiences.

SafeBites Sep 2024 – Dec 2025

- Built a full-stack web app (MySQL) for filtering grocery products by allergen and category.

AWARDS

Finalist, University Track DATATHON 2026 – RISTEK Fasilkom UI Aug 2026

- Reached the finals of a data competition organized by RISTEK Fasilkom UI, presented by OpenAI.

Top 15 Finalist, SmartPath Business Case Competition Dec 2023

- Team of three; case on digital technology and young generations to catalyze Indonesia's creative economy.

ORGANIZATIONAL EXPERIENCE

Head of Academic Division, Himpunan Mahasiswa Departemen Matematika Apr 2025 – Feb 2026

- Led academic programs including competition support and exam-preparation sessions.
- Coordinated UTS/UAS preparation: collected past exams, built solution discussions, and ran Q&A sessions.

Competition Coordinator, UI Science Olympiad Jun 2024 – Nov 2024

- Managed three competition branches for a national event with 7,000+ participants.

Treasurer Controller, Ksatria MIPA Jul 2024 – Nov 2024

- Managed budgeting, transaction tracking, and periodic financial reports.

SKILLS

Data & Programming: Python, SQL, Pandas, NumPy, Scikit-learn, Excel, Google Sheets, Apps Script, Git
Analytics & ML: Regression, Anomaly Detection, NLP, Sentiment Analysis, BERTopic, SHAP
Tools: Looker Studio, Streamlit, Matplotlib, Seaborn, Kalodata, Fastmoss, Microsoft Office
